← **MAGIC LILY—HARDY AMARYLLIS**
(*Lycoris Squamigera*)

We offer you one of the most amazing flowering bulbs we have ever grown. In early spring beautiful dark green foliage grows like Daffodils, then as if by magic in early summer it disappears. Around the first part of August 3-ft. stems appear out of the ground, with a cluster of 6 to 8 Lily-like flowers which have a lovely fragrant odor.

Bulbs must be sold now to reserve stock for July planting. Plant the crown of the bulb in the ground covering 5 to 6 inches of dirt. 75c each; 3 for \$2.00; 6 for \$3.50. Postpaid prices.
